

EFG X BERG & HINDENES PRESENT RECO: "A COMFORTABLE, TIMELESS, AND SUSTAINABLE CHAIR"

EFG is proud to present our meeting chair, Reco, created by Berg & Hindenes. Combining a timeless look, comfort, and sustainability, Reco is a versatile chair created to adapt and endure. It's layer-by-layer design ensures it stands the test of time, both in aesthetic and durability.

Customisable Comfort and Design

Reco is made for flexibility, with a seat and backrest that can be upholstered in different materials to complement the environment. Its on-site reupholstering option preserves the chair's timeless design and functionality for years to come.

The 3D-curved backrest is designed to follow the body's contours, providing lumbar support and enhancing comfort during extended use. Reinforced with moulded foam in tailored densities for the seat and backrest, Reco offers exceptional ergonomic seating.

With three distinct base options – a 4-star base with tilt and swivel, a 5-star base with height adjustment, tilt, and swivel, and a cantilever base offering smooth, swaying comfort – Reco combines flexibility and tailored comfort to meet diverse preferences.

Sustainability is at its core

A smarter choice for the planet – this chair is designed to reduce waste and last for years to come.

"We envisioned Reco as more than just a comfortable chair; it's a reflection of our commitment to sustainable office furniture. With its reupholstering capability and use of recycled materials, Reco features a layer-by-layer design that allows customers to refresh and reuse components over time," says Andreas Mattisson, Manager of Product Development at EFG.

Reco is also Möbelfakta certified and has been evaluated through the EDP (Environmental Product Declaration) system, offering customers transparency on the materials used and their CO2 footprint.

FAKTA:

- Design by Berg & Hindenes
- Backrest available in two heights
- Three base options:
 - Cantilever with comfort and movement
 - Four-star base with fixed height and tilt function

- Add on: Bases available in RAL Classic colours

*EFG's FSC-license number: FSC-C009111

**EFG**

With its roots in Scandinavian design, Swedish furniture company EFG has been manufacturing high quality, sustainable furniture for more than 135 years. EFG creates interior solutions for tomorrow's work and meetings in collaboration with studios and designers like FRONT, Form Us With Love, and Olle Lundberg. Through a design process based on flexibility and long product life, EFG drives the development of recyclable furniture that is designed to last and be cherished. The products feature a layer-by-layer design that makes it possible to replace and repair components and upholstery, making it easy to update over time.

BERG & HINDENES

Berg & Hindenes is a Norwegian design duo with a strong focus on Scandinavian design, known for their innovative work in the office furniture industry. Steinar Hindenes, a graduate of the Bergen Academy of Art and Design, co-founded the design group Circus in 1992 and has since collaborated on numerous high-profile projects for leading Nordic producers. He has received several prestigious awards and is also a Professor II at the Bergen Academy of Art and Design. Together with Anders Berg, they now form the design group Berg & Hindenes, continuing to create modern, functional designs rooted in Scandinavian aesthetics.
